

## CODE 128 FONT SAMPLES

Below you will find samples generated by the Code 128 Converter application. The samples show output in both Variant B and Variant C at different font sizes. You will see the output as it looks in Times New Roman. To test, select the code line and change the font to Code 128 for each code line. Printing the resulting document should show any incompatibilities with your printer or related hardware.

VariantB (text:Variant-B):

12 Pt

14 Pt

16 Pt

18 Pt

Variant C (text:102030405060708090):

12 Pt

14 Pt

16 Pt

18 Pt
